THE MARRIAGE STATE: Shall Happiness and Health, or Missry and Sickness, attend it?

MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful. Strange that countless human beings exist and drag through life as do the beasts of the field, or the insents of the earth, whiching no more though; or reflection than though the noble faculties of mind were not vouchsafed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children.

HOW OFTEN IT HACTERS THAN WIFE LINGERS FROM YEAR TO YEAR In that pitiable condition as not even for one day to feel the happy and exhiberating industree incident teet the happy and exhibitating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always alling.

Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus

THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and housancy of spirits, rapidly, and appa-cently inexplicably, becomes a feeble, rickly, de-bilitated wife, with frame emactated, nerves un strung, spirits depressed, countainance bearing the impress of suffering, and an utter physical and mental prostration. Sometimes this deplorable change may and doss ofteners are deployable enange may and doas arise from organic or constitutional causes. But oftener, by far oftener, to gross and inexcussible ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

Hereditary Complaints upon the Children "UNTO THE THIRD AND FOURTH SENERATION." Transmitting CONSUMPTION, SCROPTLA, HYPOCHONDRIA, INSANITY, GOUT, KING'S EVIL, and other diseases,

DREADFUL INHERITANCE from the Parents.

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cows, our ozen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that someons ourselves as human beings, with human functions and massings subject to great derangesomeons ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happiness—m all that concerns the health and welfare of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE.

How long shall this ignorance prevail so productive of its hitter fruits! How long shall the wife and mother be ignorant of the nature, character and causes of the varieus womb and sexual complaints, embittering her days by suffering—suffering of empriouged to years, eventuating in a complication of diseases utterly and hopelessly incurable! Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children. AR CULPABLE AS INEXCUSABLE!

No husband or wife need be ignorant of what converns them most to know to secure their health and happiness. That knowledge is contained in a little work intitled THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

BY DR. A. M. MAURICEAU,
